OVERVIEW

Internships are supervised, practical training periods for which students earn academic credits. Internships provide excellent opportunities for students to put into practice much of the knowledge and skills acquired during their studies and to gain firsthand knowledge of the tourism and hospitality industry. It is also an opportunity for employers to observe the student in the work environment and evaluate their management potential for possible future employment.

Modul University Vienna requires that students complete a **min. 900-hour internship (equal to 29 ECTS)** as part of their study program. It can be completed in **one part (min. 6 months alias 900 hours)** or in **two equal parts (min. 3 months alias 450 hours each)**. The organization selected for the internship can range from large destination marketing organizations and major hotel chains to small and medium-sized enterprises.

It is each **student's own responsibility to find an internship placement**. Modul University Vienna maintains relationships with a wide range of internship partners who are listed on the internal career platform [JobTeaser](#). It is also possible that a student proposes to do an internship at a company which is not listed in the database, if it is relevant to their studies. The **Internship Preparatory Course (IPC)**, taking place every semester, is a mandatory pre-requisite in order to get the internship contract signed. Internship and career coordinators provide extensive support on [Jobteaser](#) accessible with the student login.

Similarly, to on campus behavior, interns must act according to the Modul on-campus's code of conduct during their internship. This includes the following points:

1. Students' conduct and performance represent not only themselves but also Modul University Vienna. Before, during and after the internship, students are effectively an ambassador for the university and should act accordingly
2. Students must adhere to the Study contract signed with Modul during the internship.
3. Students must respect the laws of the country where they perform their internship. You can find more information about various countries [here](#).
