

Study Regulations

Foundation Program

Decided on **16 June 2026** by the University Senate

Due to the accreditation as a private university (decision of the Austrian Accreditation Council on 12 July 2007 according to the university accreditation law, BGBl. I No. 168/1999 as amended), the University Board of Modul University Vienna decreed the following study regulations on 23 June 2026, according to Art. I §6 (5) or (6) University Constitution.

Preamble

These Study Regulations apply to all versions of study plans in place for the Foundation Program.

§ 1 Ambit

These study regulations define the admission criteria, the structure of the study program and the examination requirements.

§ 2 Goal of the Foundation Program

The Foundation Program serves as a non-degree program in preparation for progression to any undergraduate program offered at Modul University Vienna. Intensive Business and Academic English classes advance students' language proficiency to a level that meets the entry requirements of the undergraduate study programs. In addition, key aspects in Mathematics, Business Administration, Geography and Economics serve as theoretical foundations for the BBA in Tourism and Hospitality Management, the BBA in Hotel Management and Operations, the BSc in International Management, the BSc in International Management with Professional Experience, the BSc in Human Resources Management, and the BA in International Relations & Sustainability. Key aspects in Mathematics, Calculus and Computer Programming serve as theoretical foundations for the BSc in Applied Data Science.

§ 3 Admission to the Foundation Program

(1) Participation in the Foundation Program requires conditional admission to any undergraduate program offered by Modul University Vienna. Exceptions can be made by the Dean of the undergraduate study programs.

The following requirements qualify candidates for admission to the foundation program:

(2) Proof of a secondary school leaving certificate equivalent to a general university entrance qualification. In case the applicant is attending the final year of secondary school at the time of submitting their application, the applicant needs to submit a mid-semester transcript or equivalent documents to show credibly that the general university entrance certificate will be received before the intended study start. Applicants need to present relevant certificates as originals before the commencement of studies, otherwise the admission is void.

(3) All applicants whose first language is not English must provide a proof of their English proficiency level B2 according to the Common European Framework of Reference for Languages through one of the following tests taken within the last two years.

- a) TOEFL Internet-Based Test (iBT): 4.0 (no sub-score below 3.5); or
- b) IELTS: overall band 5.5 (no sub-score below 5.0); or
- c) Cambridge English First (FCE): Grade C (minimum of 160); or
- d) Duolingo English Test: 100 (no sub-score below 85); or
- e) Pearson Academic (PTE): 39.

The Admissions Committee may grant exceptions if an applicant proves that they have completed at least two consecutive years of secondary or higher education in the English language at a recognized institution (e.g., International Schools with American, British, or IB curricula). The admissions committee reserves the right to request and consider any additional evidence of English proficiency, including from those claiming exemptions.

(4) The application must include the following documents:

- Curriculum vitae (personal data sheet)
- Letter of motivation
- Copy of passport
- Passport-size photograph

(5) Applicants may optionally submit a letter of recommendation.

(6) A certified translation needs to accompany all documents, which are not in the German or English language.

(7) The Admissions Committee may conduct an interview with the applicant. The interview may take place either in person, via video conference or telephone. The interview serves to clarify unanswered questions raised during the application process and to check if the applicant's expectations, personality profile, and their knowledge of English are in line with what the program offers.

(8) The Admissions Committee decides on the final admission to the study program and possible conditions once the candidate has submitted a complete application.

(9) The Study Contract of a minor accepted into the Foundation program requires the co-signature of a legal guardian.

§ 4 Structure and Duration of the Foundation Program

(1) The regular duration of the Foundation Program is one semester.

(2) All lectures, course work and examinations are held in the English language.

(3) Applicants with English proficiency levels that meet the requirements as stipulated in the respective undergraduate program study regulations may be exempt from attending the course 'Business Communication.' Other conditions set forth by the Admission Committee remain unaffected.

(4) The Foundation Program is deemed successfully completed once all courses in the Foundation Program from which the student is not exempt have been assessed with a 'pass' grade or above according to the MU grading scale.

(5) In case of negative assessment, MU's Examination Regulations and Student Code of Conduct apply.

(6) In case of negative assessment, the Dean of the Undergraduate Study Programs can decide on a partial progression to the undergraduate programs with the following limitations:

- a) Completion of, or exemption from, the course Business Administration is required to enroll in 0103 Organizational Behavior & CSR, and 0106 HR Management & Management Development, 0401 Microeconomics and 0402 Macroeconomics.
- b) Completion of, or exemption from, the course Geography and Economics is required to enroll into 0401 Microeconomics, 0402 Macroeconomics and 0404 Economic Geography.
- c) Completion of, or exemption from, the course Business Communication is required to enroll in 0601 Advanced Business Communication.
- d) Completion of, or exemption from, the course Mathematics is required to enroll in 0101 Accounting and Management Control I, 0301 Mathematics & Statistics I, 0401 Microeconomics and 0402 Macroeconomics.

- e) Completion of, or exemption from, the course Calculus is required to enroll in 1361 Applied Linear Algebra.
- f) Completion of, or exemption from, the course Basics in Computer Programming is required to enroll in 1382 Fundamentals of Computer Science and Programming and 3481 Fundamentals of Web Programming and Application Development.

(7) As soon as students have successfully completed the required courses of the Foundation Program, they are required to enroll in the relevant classes of the undergraduate study program to which they were admitted. This rule does not apply for students who complete the FP standalone program (without being admitted to an undergraduate program).

(8) Attending courses from the undergraduate program curriculum does not absolve the student from fulfilling the conditions set forth by the admission committee before full admission to the undergraduate programs.

(9) A leave of absence is not available to students enrolled in a Foundation Program. Only students who have completed at least one semester of an undergraduate curriculum may apply for a leave of absence.

§ 5 Curriculum Overview

Foundation Program for BBA in Tourism and Hospitality Management, BBA in Hotel Management and Operations, BSc in International Management, BSc in International Management with Professional Experience, BSc in Human Resources Management, and BA in International Relations & Sustainability.

Subject	Type	Format	h/w	ECTS
Business Communication	EC	SE	16	15
Mathematics	EC	SE	6	5
Geography and Economics	EC	SE	6	5
Fundamentals of Business Administration	EC	SE	6	5
TOTAL h/w and ECTS			34	30

SE – Seminar

EC – Elective Course

Foundation Program for BSc in Applied Data Science

Subject	Type	Format	h/w	ECTS
Business Communication	EC	SE	16	15
Mathematics	EC	SE	6	5
Calculus	EC	SE	6	5
Basics in Computer Programming	EC	SE	6	5
TOTAL h/w and ECTS			34	30

The Dean has the discretion to determine the minimum number of participants for all courses.

§ 6 ECTS Points

(1) Non-curricular ECTS points (European Credit Transfer System – ECTS, 87/327/ECC, Official Journal no. L 166 from 25 June 1987, CELEX no. 387D0327) are allocated for each course as a means to indicate the student workload.

(2) Each ECTS credit corresponds to 25 working hours for the student.

(3) ECTS accumulated in the Foundation Program are not transferrable to any degree program offered by Modul University Vienna. They appear on the Transcript of Records as non-curricular ECTS, but do not count towards the total ECTS of a degree study program nor the weighted average grade percentage of the respective degree program.

§ 7 Decision on Termination of Enrollment and Course Retake

In this program, the tasks outlined in §10 of the MU Examination Regulations and Student Code of Conduct are carried out by the Dean of the Undergraduate Study Programs, as specified by the University Constitution.

§8 Completion of the Foundation Program

After a student has passed all courses listed in §5, Modul University Vienna will issue a certificate on the successful completion of the Foundation Program.

The University Board of Modul University Vienna publicly announces these Study Regulations which take effect on 21 September 2026.
