OVERVIEW, OBJECTIVES & BENEFITS

Internships are supervised, practical experiences through which students earn academic credits. These experiences provide valuable opportunities to apply the knowledge and skills acquired during their studies while gaining firsthand industry experience. They also allow employers to assess students in a professional environment and evaluate their potential for future employment.

Students in the **BSc in Human Resources Management** must complete the Internship Module (30 total ECTS), which consists of the following elements:

- Professional Development Course (1 ECTS), see [page 4](#)
- Internship 900 hours (28 ECTS), see [page 5](#)
- Internship Report (1 ECTS), see [page 9](#)

Modul University Vienna students are encouraged to actively engage in diverse professional environments related to their studies. Internship Providers are expected to maintain a structured program that supports learning and growth, ensuring a professionally stimulating environment while allowing flexibility to accommodate individual training needs.

- Enhancing career opportunities and establishing useful contacts in the industry
- Developing, reflecting, and evaluating the strategies to achieve their own career goals

Internship Providers benefit through:

- Employer branding
- Establishing academic partnerships
- The input of fresh, innovative ideas through talented students
- Gaining additional manpower during critical times
- Developing a pool of talent from which to recruit once students graduate
- The opportunity to give feedback to the university about knowledge and skills

PROFESSIONAL DEVELOPMENT COURSE | 1 ECTS

The Professional Development course is a **mandatory pre-requisite** which students must complete **PRIOR** to beginning their Internship. The goals for this course are twofold: 1) to prepare students for employment by providing resources, guidelines, and support in applying to companies of their choice in the industry; and 2) to orientate students to Internship opportunities, requirements, and procedures. The course consists of 14 units, split into 7 sessions.

Teaching approach

The course utilizes a combination of lectures, in-class discussions, case studies, critical reflections on the covered material, role plays, and group work.

Learning objectives

Upon successful completion of the Professional Development Course, students will be able to:

- Establish professional and personal goals for their Internship experience
- Understand Modul University's requirements in terms of the Internship
- Identify strategies and resources for finding employment opportunities
- Apply strategies and resources to find an Internship
- Use the job platform JobTeaser
- Create a LinkedIn profile
- Prepare their Curriculum Vitae and a Cover Letter
- Prepare for a successful interview

Assessment

Students will receive a **numeric** grade for the Professional Development Course, which is based upon student attendance, homework, participation and attendance at MU's career fair.

INTERNSHIP | 28 ECTS

Students are required to complete an Internship containing a minimum of **900 hours** in a field relevant to their study program, such as:

HR Industry Segments:

- Corporate Human Resources Department
- Human Resources Consulting Firms
- Talent Management Consulting
- International Organizations
- Healthcare Organizations
- Payroll & HR Outsourcing Services
- Recruitment & Executive Search Agencies

Job Functions for all students: (this list is not all-inclusive and PAD will determine if a position qualifies for the specific program of study)

- Talent Acquisition / Recruitment
- Human Resources (Generalist)
- Learning & Development (Training)
- HR Administration
- Employer Branding
- HR Consulting

This Internship is designed to provide students with the opportunity to apply their acquired theoretical knowledge and gain practical experience. All Internships should enable students to put theory into practice, develop vocational and personal skills, and enhance their career opportunities.

The student's specific tasks and expected deliverables for the Internship must be agreed upon in advance and approved by the Program Area Director or the Dean.

Internship Providers

An Internship Provider can range from large corporations to small and medium-sized enterprises, as well as Modul University's in-house internship opportunities. It is each **student's own responsibility to secure an Internship**. Potential Internship Providers can be found on [JobTeaser](#). Students may also propose an Internship with an organization not listed in the JobTeaser database, as long as it is relevant to their studies. If it is unclear if an organization fulfills the requirements for an Internship, please consult with the Internship Coordinator.

Internship Specifications

The internship can be completed either domestically or abroad and may be undertaken as a single placement of at least 900 hours or divided into two equal parts of at least 450 hours each. The option to split the required minimum of 900 hours into two equal segments is intended to provide greater flexibility for students.

900 hours = approx. 6 months (24 weeks x 40 hours /week minus vacation days)

450 hours = approx. 3 months (12 weeks x 40 hours/week minus vacation days)

Considerations for non-EU students

Non-EU students can complete the Internship either **domestically or abroad**.

Within Austria

Non-EU students can **work full-time within Austria** as part of their Internship contract, if the **company informs the Austrian Public Employment Service (AMS)** in writing regarding the employment.

Outside of Austria

Non-EU students doing their **Internship outside of Austria**, are **self-responsible** to ensure scheduling their Internship according to the regulations of the **MA35**. Note that students are not allowed to be out of the country for longer than 6 months in order to keep their residence permit for Austria.

Code of Conduct

Similar to on campus behavior, all students must adhere to Modul University's Code of Conduct during their Internship. This includes the following points:

- Students' conduct and performance represent not only themselves but also Modul University Vienna. Before, during and after the Internship, students are effectively an ambassador for the university and should act accordingly.
- During the Internship, students will remain subject to the terms and conditions of Study contract signed with Modul University Vienna.
- Students must respect the laws of the country where they perform their Internship. You can find more information about the relevant laws of various countries [here](#).
- Students must dress appropriately for their position. If you are unsure about your dress code, contact career@modul.ac.at or your Internship supervisor at the company before the start of your Internship.
- Students must complete the Internship under the conditions in the Internship approval form signed between the Internship Provider, the student and the Internship Coordinator.
- Students should submit all relevant documents within the given time frame as required in this Internship Manual (see pages 6 and page 8).

Failure to comply with these rules may result in no ECTS points being awarded at the conclusion of the Internship.

Internship Documentation

In order for Modul University Vienna to evaluate students' Internship and grant them ECTS for their experience, it is necessary for students to provide detailed documentation at the beginning, middle, and end of their Internship.

Examples of all the forms required for the administration of the Internship are found at the end of this manual. Individual forms can also be downloaded from the Professional Development course Moodle page or from JobTeaser.

COMPLETED FORMS AND DOCUMENTS MUST BE SUBMITTED ELECTRONICALLY (VIA EMAIL) TO THE INTERNSHIP COORDINATOR. FAILURE TO MEET THE SPECIFIED DEADLINES WILL RESULT IN STUDENTS NOT RECEIVING ECTS.

1. Internship Approval

All Internships require the approval of Modul University Vienna **before** they can commence. The Internship Approval Form, signed by the student and the Internship Provider, must be submitted to the Internship Coordinator prior to starting the Internship. A description of the Internship (i.e., the student's tasks, responsibilities, deliverables, etc.), duration (start and end date), and the total number of required working hours must be specified in the Internship Approval Form. The Internship Approval is only valid if it is signed by all relevant parties (the student, the Internship Provider, and the Program Area Director).

2. Mid-Term Appraisal

The Internship Mid-term Appraisal Form must be submitted to the Internship Coordinator within **4 weeks after the mid-point** of the Internship in order to assess the student's interim progress and experience.

3. Final Appraisal and Confirmation Letter

In order to assess the student's overall performance and experience, the Internship Final Appraisal Form must be completed and signed by the student's direct supervisor and submitted to the Internship Coordinator within **4 weeks after concluding** the Internship. Students must also submit to the Internship Coordinator a signed confirmation letter written by the Internship supervisor.

Assessment

After all the required documents and forms have been received, they will be reviewed by the respective Program Area Director. Students will receive a Pass or Fail grade for their Internship as determined by the Program Area Director. This assessment is based primarily upon the Mid-term and Final Appraisals and the successful completion of the required tasks and responsibilities.

If the student has achieved all required criteria, a **Pass** grade will be recorded and the respective ECTS points will be granted.

However, if the Internship was terminated early by either party, if another element stated in the Internship Agreement was not fulfilled, or if the student received negative Supervisor Appraisals, then a **Fail** grade may be recorded.

INTERNSHIP REPORT | 1 ECTS

After earning a Pass grade for the Internship, students must submit a final written report. The Internship Report is a 10-page/2500-word academic essay in which students describe their Internship and analyze it in depth according to the formal requirements specified below.

Report Structure

The Internship Report should be written in 12pt Times New Roman font with 1.5 line spacing and 2.54 cm margins.

The general structure of the Report should follow this order:

- **Introduction** (approximately 250 words) – Provide an overview of the Internship Provider for which you completed your Internship, including its main functions, activities, and objectives.
- **Description of the Internship** (approximately 500 words) – Provide a detailed description of the specific tasks and responsibilities you handled during the Internship and how they contributed to the Internship Provider's goals.
- **Academic Reflection** (approximately 1250 words)– Elaborate upon the key scientific principles, theories, and concepts that you have learned through your coursework at Modul University which were relevant to your Internship and explain how you applied this academic knowledge in practice during your Internship. The use of scientific sources with APA referencing style is required.
- **Personal Evaluation** (approximately 250 words) – Assess your overall experience, including what you learned personally and professionally.
- **Conclusions and Recommendations** (approximately 250 words) – Summarize key takeaways from the Internship experience and suggest any recommendations for improvement, both for the Internship Provider and for future students.
- **Bibliography** – A minimum of five scientific references must be included. APA referencing style is required.

Assessment

The Internship Report is due **8 weeks** after the completion of the Internship and must be submitted electronically (via email) to the Internship Coordinator.

THE USE OF GENERATIVE A.I. TO COMPLETE THE INTERNSHIP REPORT IS STRICTLY PROHIBITED AND WILL BE CONSIDERED ACADEMIC MISCONDUCT.

The Internship Report will be graded by the Program Area Director based on academic criteria, including structure, analysis, and reflection.

Grading Rubric

A	Structure	25 %
B	Analysis	40 %
C	Critical reflection	25 %
D	Academic writing	10 %

Explanation of Breakdown:

1. **Structure (25%)**

This section evaluates the clarity and coherence of the report. It includes how well the report is organized, how logical the flow is from introduction to conclusion, and the overall presentation (including headings, subheadings, formatting, and paragraph structure).

2. **Analysis (40%)**

This is the core academic component. It examines the student's ability to apply theoretical frameworks. This portion has a larger weight since it's the most critical aspect of the academic Internship.

3. **Critical Reflection (25%)**

This component evaluates the student's ability to reflect on the learning process, the challenges faced during the Internship, and how the Internship contributed to their academic and professional development. It assesses whether the student has critically evaluated their own work and learning journey.

4. **Academic writing (10%)**

This includes the writing style, clarity of expression, grammar, and spelling, and evaluates proper citation practices, including accurate referencing and consistency with the required citation style (APA)

ADDITIONAL INFORMATION

Modul University Vienna s Responsibilities

Modul University Vienna does its very best to assist students in finding suitable Internships within a safe working environment. The university arranges guest speakers, on-campus interviews and company presentations during the Modul Career Day that takes place each semester. The Professional Development course helps students to go through the application process.

However, the university does not allocate students to Internships. The Internship Coordinator will offer guidance and assistance, but it remains the student s responsibility to find a suitable Internship.

Internship Provider s Responsibilities

The organization shall treat the student as an employee on a short-term contract in accordance with the organization s policies and the country s legislation. The student shall have the same level of liability and insurance coverage provided for all employees at that level. The employer is expected to provide a safe working environment in conformity with Health and Safety legislation.

A full induction into the organization and its working practices should be offered. The employer will develop a training plan for the duration of the Internship and appoint a supervisor responsible for overseeing the student s work, conducting regular training, and providing guidance.

Additionally, the employer may assist the student in finding suitable accommodation and support with travel and visa arrangements. The employer is responsible for selecting a suitable candidate, determining the conditions of employment, and agreeing on the level of remuneration. In cases of contract violations or student misconduct, the employer shall consult with the Internship Coordinator at Modul University Vienna.

Student s Responsibilities

The student must not start working until the Internship approval has been signed by the 3 parties (the student, the Internship Provider, and the Program Area Director). The student must follow the terms stated in the Internship approval form and comply with all company rules and policies (e.g., working hours, confidentiality, health, and safety procedures).

The student must not work for another company while doing the Internship unless written permission is granted by the company and the Program Area Director. Any changes in the Internship such as changes in the time period, employer, conditions, etc., shall be discussed with the Internship Coordinator before any decision is made.

Transferring Credits for the Internship

Practical professional experience acquired by the student prior to enrollment at Modul University Vienna may be credited towards the Internship if it is compliant with the respective study regulations and the requirements outlined in this Internship Manual.

If the student has completed an equivalent professional Internship of **at least 900 working hours**, **the student must submit:**

- Application Form for Credit Transfer available on MU website
- Reference Letter or Certificate from the employer confirming the workplace, the student's duties and the time period of work

If the student has completed an equivalent professional Internship of **at least 450 working hours**, **the student must submit:**

- Application Form for Credit Transfer available on MU website
- Reference Letter or Certificate from the employer confirming the workplace, the student's duties and the time period of work
- The students need to complete another internship of 450 hours

Applications for credit transfers must be submitted to the Academic Office **prior to the study start at MU** and **prior to the beginning of the first semester at MU** to make their request eligible, and to allow enough time for the administration involved. More information can be found on the MU website. The Dean will decide if the Internship qualifies to be transferred.

With a positive decision, **28 ECTS for 900 working hours / 14 ETCS for 450 working hours** will be transferred towards the mandatory Internship.

STUDENTS AWARDED TRANSFER CREDIT FOR THE INTERNSHIP ARE STILL REQUIRED TO ENROLL IN THE PROFESSIONAL DEVELOPMENT COURSE AND SUBMIT AN INTERNSHIP REPORT WITHIN 8 WEEKS OF THE TRANSFER APPROVAL.
