Due to the accreditation as a private university (decision of the Austrian Accreditation Council on 12 July 2007 according to the university accreditation law, BGBl. I No. 168/1999 as amended), the University Board of Modul University Vienna decreed the following study regulations on 25 April 2017 based on § 3(1) of the Private University Law.

Preamble

These Study Regulations apply to all versions of curricula in place for the Bachelor of Business Administration in Tourism, Hotel Management and Operations study program. The current curriculum of this program is referred to with the abbreviation 115.

§ 1 Ambit

These study regulations define the admission criteria, the structure of the study program and the examination requirements.

§ 2 Goal of the Degree

The BBA degree is awarded at the completion of academic studies for tourism, hotel management, and operations and signifies career qualifications. Examinations taken throughout the program, practical trainings, an internship, and a thesis, determine whether the student has acquired the knowledge necessary for a transition to professional practice, a coherent overview of the subject matter, the ability to independently apply scientific knowledge and methods, and the theoretical foundation for a continuation of the studies in a graduate-level program.

§ 3 Degree of Completion

After the successful completion of the study program, the following academic degree will be conferred:

Bachelor of Business Administration in Tourism, Hotel Management, and Operations

The short form of this degree is:

In case the applicant is attending the final year of secondary school at the time of submitting their application, the applicant needs to submit a mid-semester transcript or equivalent documents to show credibly that the general university entrance certificate will be received before the intended study start. Applicants need to present relevant certificates as originals before the commencement of studies otherwise the admission is void.

applicant's expectations, personality profile, and their knowledge of English are in line with what the program offers.

(6) The Admissions Committee decides on the final admission to the study program and possible conditions once the candidate has submitted a complete application.

(7) Minors require the approval of a legal guardian.

(8) Conditional Admittance: Applicants who do not fulfill the admissions criteria for direct entry to an undergraduate program but fulfill the criteria for attending the Foundation Program, may be conditionally admitted upon discretion of the Admissions Committee. The Admissions Committee may also decide to set the Foundation Program course 'Mathematics' as a condition. In this case, a positive assessment of the course 'Mathematics' is required before students can enroll into courses of Module III – Quantitative Methods. Progression to the undergraduate study programs is regulated by the Foundation Program Study Regulations.
